Bump-Up Certificate Rate Change

Yes, I want to take advantage of my bump-up certificate rate increase option!

You may, at any time during the certificate term, elect a higher rate that will be the rate then prevailing for the Bump-Up CD at the time you exercise the bump-up rate option. You can bump-up to the higher rate once during the term of a 15 month certificate and two times during the term of a 30 month certificate. All changes to your Account arising from your election to change the Initial Interest Rate must be made in writing. No other changes will be permitted. **The new rate will be effective from the date NIHFCU receives notification of the election and will continue for the remainder of the certificate term**. The NIHFCU will not set up automatic bump-ups.
